

FOXX

STACKABLE 3 METRE SIT-ON-TOP

Lively Performance, Great Stability

Lifetime Warranty

The sit-on-top kayak that paddles like a Squid and stacks like an Ocky is here... the Foxx by Australis!

The Foxx has the waterline of the Squid so is great for straight line paddling but has the Ocky's deck profile and stacks with an Ocky, Squid or another Foxx.

The wide seat takes larger adults in comfort or allows a small child passenger to sit between your legs and, at only 18kg, is lightweight for easy lifting & carrying.

In addition to hand toggles at each end (for easy 2 person carrying) there is a moulded hand-hold at the centre for simple 1 person portability.

The storage-well moulded-in at the rear carries your picnic or change of clothes (in a dry bag or an Australis Utility Box) and the deck profile also allows the Foxx to stack with the other Australis sit-ons on the Australis small sit-on-trolley (with extension poles).

The Foxx can be upgraded with a deluxe backrest, and the bars that the backrest attaches to are moulded-in (not riveted or screwed on) for secure attachment.

With all the standard Australis Performance Paddling Features (front-to-rear "rocker", soft chines on the front and hard chines on the rear, a tapered bow and a moulded-in keel), the Foxx is great on flat water or in the surf!!

If you like paddling the Squid, but desire stackability, then the Foxx is for you!

Specifications:

Length: 3.0m (9'11")
Width: 76cm
Depth: 28cm
Weight: 18kg

11 features that make the Foxx the best value 3 metre stackable sit-on-top in Australia

- 1 The hull is wide and extremely stable. Moulded-in ridges on the under-side of the hull give structural support, whilst an integrated keel keeps the Foxx on a straight course effortlessly.
- 2 The inclusion of front-to-rear "rocker", along with soft chines on the bow and hard chines on the rear means the Foxx is very responsive when quick turning is required.
- 3 The tapered bow makes it easy to get the Foxx up and moving, and gives superior lift over waves, chop & swell. The unique shape of the bow deflects water away from the midline keeping the paddler dry.
- 4 "Kiss-offs" are positioned in the seat, foot-wells and storage-well for maximum drainage. They form pillars between the top and bottom of the hull that maintain the structural integrity of the Foxx.
- 5 The seat is extra wide and extremely comfortable for larger people. The depth of the seat well provides exceptional lower back support.
- 6 The Foxx maintains floatation with the Australis standard "air lock" buoyancy.
- 7 The foot-wells are positioned slightly lower than the seat, minimising fatigue and cramping. This feature prevents pressure building up in the muscles of the legs and lower back, and keeps your paddling position relaxed and comfortable.

Please note:

If your feet are at the same height or slightly higher than your seat, Hamstrings and lower back muscles are on full stretch for extended periods of time. This can result in injury because of a reduced range of motion to absorb the dynamics of paddling, or muscle cramps and tingling due to reduced blood flow to the area or localised pressure on nervous tissues.

An in depth explanation of kayak features can be found on our website. Go to www.AustralisCanoes.com.au & click the **Features Explained** link

- 8 The backrest attaches to stainless steel bars moulded into the hull (not riveted or screwed on) giving the most secure backrest attachment.
- 9 There is a storage-well moulded in at the rear of the Foxx where you can secure cargo in a dry bag or in the custom made Australis Utility Box.
- 10 Moulded hand toggles at each end of the Foxx make two person carrying comfortable and easy. The inclusion of moulded hand-holds at the centre of balance make it easy to carry the Foxx by yourself.
- 11 The top deck profile allows the Foxx to be stacked for fuss free storage and transporting. The Foxx can be stacked with an Ocky, another Foxx or the Squid.

STACKABLE

Foxx Fishing Package

The Foxx fishing package includes:

- Foxx sit-on-top kayak
- Australis deluxe backrest
- Powerblade double paddle
- Paddle leash
- 2 x fixed rod holders at rear of seat well
- Adjusting rod holder in front of paddler
- 1.5 litre pod
- Front deck bungy
- Cargo strap (factory fitted or removable)

Why you would choose a Foxx...

- Excellent companion to the Squid as it is stackable for easy transporting on a car or trolley
- Paddle is included in the price - Excellent Value!!
- At 18kg, it is light weight to lift
- Extra wide seat takes larger paddlers in comfort
- Backrest bars are moulded in, not riveted or screwed on
- Feet are lower than seat for optimal biomechanical paddling position
- Moulded-in hand-holds for easy lifting & carrying
- Storage-well moulded-in at rear
- Space between your legs to sit a small child
