

Paddles

All Australis fishing packs come with a paddle included in the price. The only option for single-ended canoe paddles are Powerblade paddles. However, double Powerblade paddles can be upgraded to a Banjo or Tyronsea paddle by paying the difference between the price of the included paddle and the one that you would like to upgrade to.

Upgrade options include:

- Upgrading from a Powerblade to a Tyronsea blade or Banjo blade
- Upgrading a plain alloy shaft to include heatshrink
- Upgrading the shaft from an alloy to fibreglass shaft
- Upgrading from a one-piece alloy shaft to a push-button split-shaft alloy paddle (takes apart for easy transportation) or a fibreglass smart-shaft (there is a 10cm length adjustment option and the angle of the blade off-set can be set from flat to 90 degrees off-set)

Powerblade

Tyronsea blade

Sit-in kayaks provide fast and comfortable access to fishing holes on rivers and other enclosed waterways such as lakes, bays and estuaries.

They are suitable for colder climates, as you can stay dry and warm with the use of a spraydeck. A sit-in kayak is perfect for fishing in the eddys and pools, as well as up and down rapids, but not suited to ocean fishing.

2-Up

A tandem sit-in kayak that can be used as a single by moving the front seat to a central position. A great two person alternative to a canoe as it is shorter and lighter.

- Length: 4m
- Width: 77cm
- Weight: 26kg
- Capacity: 210kg
- Use on: Flat water only

Fishing Package

- 2-up kayak
- 2 x Powerblade double paddles

Bass

A long time favourite within the fishing community, the Bass features exceptional stability, responsive turning and an extra large cockpit.

Barra

The Barra offers the same feature benefits as the Bass, with the inclusion of the moulded-in keel for better straight-line control.

Length: 2.8m
Width: 77cm
Weight: 18kg
Capacity: 130kg
Use on: Flat water (Barra)
Flat water to small rapids (Bass)

Fishing Package

Bass or Barra kayak
1 x Powerblade double paddle
1 x paddle leash
1 x fixed rod holder

Barra

Keel - the only difference between the Bass (shown above in camouflage) and Barra (shown in blue). This makes the Bass easier to turn and the Barra easier to keep on a straight course.

Australis is the largest 100% All Australian designer & manufacturer of plastic canoes, kayaks & sit-ons.

All Australis products are: 100% Australian Made
100% Australian Designed, and
Australis is a 100% Australian owned family company

These 3 factors combine to ensure that you will receive a quality product that is designed specifically for Australian paddling conditions.

As we are a wholly Australian owned company and not under the influence of any foreign companies, Australis can honestly be called truly independent. It also means that canoes, kayaks and replacement parts are readily available and do not depend on shipments from overseas.

Funyak

A safe and stable choice, the Funyak Fishing Package has everything needed to get the smallest member in the family on the water.
