**Designed in Australia by experienced (& still active) Australian paddlers.
Made in Australia, by a 100% Australian family owned company.**

Why buy Australis?

- Australis is the largest 100% All Australian designer and manufacturer of plastic canoes, kayaks, sea kayaks and sit-on-tops.
- Australis is a family owned business that has been in the industry for 30 years.
- All Australis craft are designed by paddlers for paddlers. We don't just design, manufacture and sell, we use our products regularly.
- These factors combine to ensure you will receive a quality product designed specifically for Australian paddling conditions, unlike many other brands on the market at the moment.
- Australis canoes, kayaks, sea kayaks, sit-on-tops and paddles have been certified as a "Product of Australia" which is the highest qualification offered to a manufacturer. This means that all of our manufacturing processes occur within Australia, using Australian raw materials.
- Australis has so much faith in our product that we offer our retail customers a lifetime warranty.
- Australis is a truly independent Australian company so all craft and parts are readily available.

CANOES and KAYAKS for 2 OR MORE PEOPLE:

Semi-enclosed canoe

BUSHRANGER

Length: 4.3m
Width: 85cm
Weight: 36kg (2 seats)
43kg (3 seats)
Capacity: 260kg
Use on: Flat water to small rapids
Options: Motor bracket
Outrigger(s)
Fishing package

- 3 separate cockpit areas
- Contoured seats & backrests for comfort
- Urethane buoyancy fixed in each end
- All plastic & alloy construction for durability
- Available as a 2 or 3 seater
- Will take 2 x 60 litre storage barrels in centre of a 2 seater
- Seats are enclosed air tanks for secondary buoyancy

Large, fully open canoe

SWAGMAN

Length: 4.65m
Width: 97cm
Weight: 43kg (3 seats)
Capacity: 300kg
Use on: Flat water (river, lake, bay, estuary)
Options: Motor bracket
Outrigger(s)
Fishing package

- Fully open deck area with extra wide seats
- Wide, flat hull provides superb stability
- Slight amount of rocker for easy turning
- All plastic & alloy construction for durability
- Foam buoyancy in each end for extra safety
- Seats are enclosed air tanks for secondary buoyancy
- Full length plastic keel & aluminum gunnels give structural support to this canoe

Sit-in kayak for 1 or 2 people

2-UP

Length: 4m
Width: 77cm
Weight: 26kg
Capacity: 210kg
Use on: Flat water only
Options: 3 litre storage pod
Middle child seat
Fishing package

- Wide flat hull for superb stability
- Keel at rear to help with straight tracking
- Contoured seats for extra comfort with angle adjustable backrests
- Large single cockpit for easy entry and exit
- Front seat moves to the centre for balanced single person paddling
- Lighter to lift onto a car than a canoe
- Shorter length gives clearance for a caravan

SIT-ON-TOP KAYAKS:

Small, light & stackable

OCKY

Length: 2.7m
Width: 78cm
Weight: 16kg
Capacity: 110kg
Use on: Flat water to surf
Options: Padded backrest
1.5 litre storage pod
Utility Box for rear well
Fishing Package

- Paddle included in price
- Stacks with another Ocky, Foxx or Squid
- Small & lightweight, but takes a big load
- Extra wide seat takes larger paddlers
- Moulded-in centre carry handle
- Storage well in the rear
- Rocker for responsive turning in surf
- Backrest bars moulded-in

3 metres & stackable

FOXX

Length: 3.0m
Width: 76cm
Weight: 18kg
Capacity: 130kg
Use on: Flat water to surf
Options: Padded backrest
1.5 litre storage pod
Utility Box for rear well
Fishing Package

- Paddle included in price
- Paddles like a Squid; Stacks like an Ocky
- Stacks with another Foxx, an Ocky or a Squid
- Extra wide seat takes larger paddlers
- Moulded-in centre carry handle
- Storage well in the rear
- Rocker for responsive turning in surf
- Backrest bars moulded-in

3 metres with hatches

SQUID

Length: 3.0m
Width: 76cm
Weight: 20kg
Capacity: 130kg
Use on: Flat water to surf
Options: Padded backrest
1.5 litre storage pod
Fishing Package

- Paddle included in price
- Drink bottle affixed with bungy holder
- Large hatches access internal storage
- Excellent straight line tracking
- Deck lines along both sides
- Extra wide seat takes larger paddlers
- Rocker for responsive turning in surf
- Moulded-in centre carry handle

Large volume & capacity

PELAGIC

Length: 4.3m
Width: 77cm
Weight: 27kg
Capacity: 230kg
Use on: Flat water, ocean, surf
Options: Rudder
Padded backrest
Fishing Package

- Paddle included in price
- Hatch on front accesses internal storage
- 1.5 litre storage pod between your knees
- Extra large dive well at the rear
- Extra wide seat takes larger paddlers

PADDLES: *Australis* are the manufacturers of 2 popular types of paddle blades: the **Powerblade** and **Banjo** blades. Both are available as fully assembled paddles or as blades only. All paddles made at the *Australis* factory are "double plugged" to create an air lock so that your paddle will float on top of the water and all double paddles have drip rings as a standard feature. Both the Powerblade and the Banjo are available in red, yellow, blue, white and black

POWERBLADE PADDLES:

Blades: Powerblades are a robust blade made from high impact polypropylene and, because they can take a lot of abuse, they are a favourite with most Australian rafting companies, hire operators, school and scout groups.

Powerblades are available made up as either single (canoe) or double (kayak) paddles on anodised aluminium shaft (32mm outside diameter).

Single Powerblade Paddles: With single paddles the blade is attached to the aluminium shaft and a comfortable moulded plastic T-grip is fitted to the other end.

Double Powerblade Paddles: As a double paddle, the powerblades are set at an angle of 70° onto the anodised aluminium shaft. **Double Powerblade Paddles** can be upgraded from a bare aluminium shaft by adding 'heatshrink & grip'.

'Split' Paddles: Powerblade double paddles are also available with a 'split' aluminium shaft that allows you to take your paddle apart for easy transporting and storage.

SEA KAYAKS:

All *Australis* Sea Kayaks include the following as standard features:

- Multi-chined hull for primary and secondary stability
- Firm Footpad with 'flap control' steering
- Rubber push-on hatches
- Bulkhead sealed storage areas
- Declines front and rear
- Front deck bungy storage
- Very comfortable seat and backrest
- Stainless steel rudder blade

 <p>GECKO</p>	<p>Compact sea kayak</p> <p>Length: 4.4m Width: 62cm Weight: 24kg Capacity: 140kg Use on: Open ocean to flat water</p> <p>Options: Sail Kit</p>	<ul style="list-style-type: none"> • Compact sea kayak that easily handles open ocean paddling • Thigh brace for bracing and rolling • Anti-glare deck • 2 large hatches access internal storage • Storage areas sealed by foam bulkheads • Raised front deck allows room to stretch and move on the water
 <p>SALAMANDER</p>	<p>Expedition sea kayak</p> <p>Length: 5.2m Width: 60cm Weight: 28kg Capacity: 180kg Use on: Open ocean to flat water</p> <p>Options: Sail Kit</p>	<ul style="list-style-type: none"> • Expedition sea kayak • Tow bracket attached on rear deck • 3 extra large hatches including a day hatch • Day hatch can be accessed on the water • Storage areas sealed by foam bulkheads • Thigh brace for bracing and rolling • Anti-glare deck
 <p>IGUANA</p>	<p>Modular kayak for 1</p> <p>Length: 4.9m Width: 64cm Weight: 29kg Capacity: 200kg Use on: Open ocean to flat water</p> <p>Options: Sail Kit</p>	<ul style="list-style-type: none"> • Three modular pods take apart for storage and transporting • Each pod is a fully enclosed unit and has the bulkhead moulded in • 3 large hatches including a day pod • Day pod can be accessed on the water • Ideal for overseas travel / expeditions • Decklines fitted along each pod
 <p>KOMODO</p>	<p>Modular – use as a single or double</p> <p>Length: 7.4m (double) 5.85m (single) Width: 62cm Weight: 55kg Capacity: 380kg Use on: Open ocean to flat water</p> <p>Options: Sail Kit</p>	<ul style="list-style-type: none"> • Modular pods take apart to transport and store • Remove or insert an extra pod to use as a single or double expedition sea kayak • Each pod is a fully enclosed unit and has the bulkhead moulded in • Large hatches access internal storage areas • Day pod can be accessed on the water by rear paddler • Front deck bungy storage for both paddlers

BANJO PADDLES:

Banjo Blades: The Banjo can be used for general purpose flat-water paddling as well as in the surf and produces a brilliant paddling experience for both novice and skilled paddlers. The asymmetrical ('tear drop') paddle shape delivers excellent paddling efficiency, and the rigidity of the glass-filled polypropylene blade (light-weight yet strong) eliminates "flutter" during power strokes. Options include an aluminium push-button split shaft that allows you to take your paddle apart for easy transporting and storage, or a fibreglass smart-shaft which means that the paddle can be adjusted in length (up to 10cm) and angle (from unfeathered to 90 degrees), as well as being taken apart for easy storage.

Banjo Paddles: Banjo blades are set at an angle of 70° on a 29mm anodised aluminium or fibreglass shaft.

Aluminium paddles are available with or without the 'heatshrink and grip'.

All **fibreglass** paddles are made standard with 'heatshrink and grip'.

Banjo 'Split' paddles are made on either an aluminium or fibreglass shaft.

The **Fibreglass 'Smart Shaft'** allows you to adjust the length of the shaft and the angle of the blades.

Detailed brochure on all Fishing Packages also available. For more information ask for an individual brochure on any of the canoes or kayaks or go to www.canoes.com.au
